

# Storyknife Craft

## Supplies

Printer paper and a printer

Cardstock or stiff paper

Scissors

Colored pencils, crayons, or markers

## Instructions

1. Print this page and cut out the storyknife template.
2. Trace it onto cardstock or stiff paper and cut it out.
3. Decorate it using colored pencils, crayons, or markers.  
If you would like, you can draw a scene from one of your favorite stories.
4. When you are done, use your storyknife to draw on the ground as you tell a story to your friends or family. It could be something that happened today, or a story from a book or television.
